

Small group – Body fluid exposure

21 year old man, brought in by police, drug affected and aggressive. Tattoos +++.

Registrar sustains a needle stick injury after giving patient IM sedation.

a. Outline your approach

There is a nice summary in Dunn, and you can find the SH guidelines on the intranet at PROMPT :

<http://system.prompt.org.au/Download/Document.aspx?id=2874929&code=AB978021F4C14BB9AAFA97E249094693> PAGES 38-39

Please have a look through the information prior to the tute – there is quite a lot involved.
